Exercises

- Exercises take place on Thursdays: 12:00-13:30 room MT 226
- One exercise roughly every two weeks (dates are in KUSSS), published on course website <http://fmv.jku.at/mc>.
- Exercises follow the lecture closely and are intended as *essential* preparation for the tests and the lecture exam.
- Total number of published exercises will be 36 (tentatively).
- There is *no* submission of worked out exercises.
- Before class starts, solved exercises should be ticked off on a list.
- Ticking off an exercise indicates that you are prepared to demonstrate your solution at the blackboard upon request.
- For taking the exam at the end of the course (i.e. passing the course), at least 22 exercises have to be ticked off.
- Ticking off more than 22 exercises does not influence final grading.
- It is *not* possible to make up for missed exercises.
- One of the students who have ticked off a particular exercise will be asked to present her/his solution at the blackboard *without* notes.
- Try to be in class on time: exercises already presented can no longer be ticked off.
- Profound knowledge should be demonstrated in presentations.

Tests

- There will be an exam at the end of the semester.
- Duration will be 90 minutes.
- To take part in the exam, you must have ticked off at least 22 exercises during the course.
- To pass the exam, you need to reach 50 percent of the possible points.
- For students who do not pass the exam (or those who want to improve their grade), there will be a second exam some weeks later.
- All dates will be announced in KUSSS.
